Mike Roller explains what he is trying to achieve. It has almost 1,000 lineal feet frontage on 2 sides. It's the gateway from the new high school and connects to Huggins Elementary school. It will be more ergonomical for parents to drop their kids off at the elementary and then to the high school. Another aspect is to create an "almost" La Centerra. This will have common fences and common architecture. The first building he will submit in a PUD is a 3-story building. There will be an amenity pond on the Northeast corner of the project.

Amy Pearce asks if the amenity pond will be used for drainage as well. Mr. Roller says it will serve both.

Dawn McRea asks what businesses will be put in there. Mr. Roller says it will be a mix. The first building is a 3-story building. The first two floors will be a mix of light retail and office. Third floor will be 4 lofts.
